My Brother’s Keeper Community Challenge
Deep Dive Milestone 2 – Reading at Grade Level by Third Grade
# Agenda

## Introduction
- MBK Webinar Overview
- Cradle-to-College-to-Career Approach
- Driving Systemic Change in Your Community
- Elements of Success

## Milestone Overview

## Build Understanding
- Engaging your Community Ecosystem
- Key Substantive Principles of Practice

## Identify Leading Practices
- Evidence-Based Practices
- Programmatic Success in the Field

## Take Action
- Turning Theory into Action: Institutional Resources

## Wrap Up
MBK Webinar Overview

Through early January, MBK Community Challenge Milestone webinars will be conducted by TA Providers and Federal Agency Leaders. Each webinar will cover one milestone and you are invited to attend based on your community focus areas:

**MBK Community Challenge Milestones**

1. Entering school ready to learn
2. Reading at grade level by third grade
3. Graduating from high school ready for college and career
4. Completing post-secondary education or training
5. Successfully entering the workforce
6. Reducing youth violence and providing a second chance

**Webinar Objectives**

- Introduce the communities to TA providers and resources available through the MBK Community Challenge
- Provide resources for continuing education around implementing milestones for Mayors and Staffers
- Enable sharing of leading practices for community programming / lessons learned from local initiatives undertaken to date
- Provide opportunity for Q&A with webinar facilitators and discuss resources coming available through the MBK Community Challenge
Cradle-to-College-to-Career Approach

The disparities between children from poor families and those from non-poor families are significant and pervasive, but targeted, continuous intervention at multiple life stages has the potential to eliminate these disparities across the cradle-to-career continuum.¹

Key Principles for Developing Sustainable Approach ²

1. Engage the Community

2. Focus on Eliminating Locally Defined Disparities

3. Develop a Culture of Continuous Improvement

4. Leverage Existing Assets

In order to effectively and sustainably implement a cradle-to-college-and-career approach it is important to understand the underlying key principles

¹ PolicyLink Technical Assistance Resources, November 2014.
² StriveTogether Theory of Action.
Driving Systemic Change in Your Community

Following your Local Action Summit, you are asked to review existing programs and policies related to MBK and establish a baseline understanding of where gaps and opportunities lie within your community. As you conduct this review, you can reference the below proven model to create a sustainable strategy for your community:

1. Identify a shared vision
2. Review data
3. Build capacity by establishing a local anchor
4. Release baseline dashboard
5. Engage broader community and networks
6. Mobilize investors/public agencies/service providers
7. Develop data infrastructure
8. Create action plans
9. Identify policy barriers
10. Share accountability
11. Ensure institutional and public policies support
12. Update action plans consistently
13. Sustain what works

The review should include recommendations for action on your selected areas of focus, standards for tracking and sharing data across public agencies / community partners, and structural recommendations for institutionalizing the effort until goals are reached.

3 Adapted from StriveTogether Theory of Action
Elements of Success

By incorporating some or all key elements of success into your design, you will drive systemic and sustainable change in your community, no matter the issue at hand. These elements of success include:

1. Clear Goals
2. Emphasis on Place
3. Authentic Youth and Community Engagement
4. Committed Leadership
5. Support from Political Leaders
6. Engaging Local Intermediary Organizations
7. Leveraging Expertise of Organizations / Networks
8. Policy and Systems Reform
9. Strategic Use of Data

By incorporating some or all key elements of success into your design, you will drive systemic and sustainable change in your community, no matter the issue at hand. These elements of success include:

1. Clear Goals
2. Emphasis on Place
3. Authentic Youth and Community Engagement
4. Committed Leadership
5. Support from Political Leaders
6. Engaging Local Intermediary Organizations
7. Leveraging Expertise of Organizations / Networks
8. Policy and Systems Reform
9. Strategic Use of Data
MBK Milestone 2: Reading at Grade Level by Third Grade
Milestone Overview: Reading at grade level by third grade

**CHALLENGES**

- Reading well at an early age is essential to later success in education, employment, and life.
- Students who are not reading at proficient levels by the end of third grade are more likely to struggle throughout their school years which in turn leads to higher dropout rates and fewer students being college and career ready.
- Increasing proficiency rates and closing the achievement gap are among the most persistent educational challenges we face.
- Making significant progress for all children, including boys and young men of color, is more likely when families, schools and communities work as partners to share the responsibility for all children reading on grade level by the end of third grade.

**OPPORTUNITIES**

- Promote Family-School-Community Partnerships to support joint book reading and in-home literacy.
- Bring successful evidence-based practices to scale.

All children should be reading at grade level by the end of third grade — the time at which reading to learn, and not just learning to read, becomes essential.

---

5 My Brother’s Keeper Task Force Report
Build Understanding: Engaging your Community Ecosystem and Key Principles

Engaging Your Community Ecosystem

A key next step toward driving change involves mapping your local community ecosystem, with a focus on engaging and connecting key stakeholders*, including:

- Conduct targeted outreach to families to help foster a culture of reading in homes
- Encourage community-based organizations to support literacy initiatives
- Partner with educators to utilize DoE training resources to support families in fostering early reading skills
- Work with private partners to help create local book sharing programs
- Connect school districts and library systems to adopt evidence-based practices to improve early literacy
- Engage civic and faith-based leaders to promote early childhood reading
- Local Elected Official

Key Principles

- We must invest in support for intensive and effective professional development to early educators responsible for the education of young children
- Family involvement is a critical element of high-quality early care and education
- Libraries and Community Based Organizations (CBOs) are an important component of a community’s educational efforts to promote early literacy
- Evidence-based instruction, aligned with the National Reading Panel, is critical for ensuring that students are properly equipped with the reading skills they need to succeed

*These key stakeholder groups are meant to serve as an illustrative sampling, to be validated and adapted as relevant to your specific community.
### Identify Leading Practices: Evidence-Based Practices and Programmatic Success

<table>
<thead>
<tr>
<th>Evidence-Based Practices</th>
<th>Programmatic Success in the Field</th>
</tr>
</thead>
</table>
| **1. Universal Screening** | **Raising a Reader** – Baltimore, MD  
Engaging caregivers in a routine of book sharing with their children from birth through age eight fosters healthy brain development, healthy relationships, a love of reading, and the literacy skills critical for school success |
| **2. Progress Monitoring** | **Minnesota Reading Corps**  – Communities across MN  
Plans to place more than 1,000 trained literacy tutors for children age three to grade three in over 700 elementary schools and preschool settings during the 2014-2015 school year |
| **3. Multi-tiered Systems of Academic and Behavioral Support** | **Data-Driven Advocacy** – San Antonio, TX  
By using data to identify issues with busing that led to absenteeism, 12 schools across three districts were able to lobby successfully for bus interventions, resulting in an attendance increase of over 45% in pre-K, kindergarten, and first grade |
| **4. Collaboration between Special Education and General Education** | |

By tailoring these evidence-based practices to your local context, you can help move the needle in your community.

Appendix
Dr. Michael McAfee is the Director of the Promise Neighborhoods Institute at PolicyLink where he partners with leaders in the US and abroad to improve the educational and developmental outcomes of children in some of the world’s most distressed communities. He oversees the Institute’s efforts to accelerate local leaders’ ability to improve the well-being of children, build evidence on the implementation of cradle-to-career strategies, and scale and sustain the impact of Promise Neighborhoods. Prior to PolicyLink, he worked in the Community Planning and Development Division of the Chicago Regional Office of the U.S. Department of Housing and Urban Development.

Michael Yudin is the Assistant Secretary for the Office of Special Education and Rehabilitative Services (OSERS) at the U.S. Department of Education. Previously, he served as Principal Deputy Assistant Secretary for the Office of Elementary and Secondary Education (OESE). Prior to that, Yudin spent nine years in the United States Senate, as a legislative director to Senator Shaheen and counsel to Senators Bingaman and Jeffords.
